### **SUPERINTENDENT'S REPORT**

Superintendent Tucker talked about the last 19 months with the COVID pandemic and the divergent opinions on mask wearing and the priority of bringing students back to school in person and his hope that the community can agree on the hope to bring students into school each day. He talked about DHHS recommendations and emphasized that having students in school is a good thing. He talked about the challenges of hybrid and remote learning. Assistant Superintendent Hinds talked about vaccinations and that it is important to know that vaccinations are a choice. She talked about daily screenings that will continue this year prior to coming into school buildings and that if families have questions or concerns to please contact their child's school nurse. Board Member Dunn added PK and kindergarten families should communicate with the nurse if their child has allergies or medical conditions as it is helpful for families and teachers. Business Administrator Blouin talked about the health and cleaning protocols and ventilation and work with Rist Frost Shumway work with the air quality. Superintendent Tucker reported on Teaching and Learning additional 19 staff and their positions with ESSER Funds. He talked about Google Classroom, and the benefits of having that tool if a student is out sick. He said that there will not be a remote division for learning in the District but families can look into VLACS as a remote option. Board Member Cormier said there was a question in general public comment about what the district will do to help students catch up. Superintendent Tucker said through progress monitoring and meeting students where they are at. Looking at data and focus on literacy, reading and writing. Board Member Cormier inquired on how the District identifies students who are falling behind and Superintendent Tucker said through multiple data points; assessments, attendance and how they are doing personally in school. he said that is how the District identified students for summer learning. He said the District is doing a great job in identifying who we need to support. He talked about masks and the public comment and the general public comment on CRT and that we are not doing that but are doing required training for teachers by law. He talked about the optional or required mask mandate. He said it is a difficult issue but we look at county data, local and school data. The summer programming had optional mask due to the data being in the green and now we are in the red which is substantial level. He talked about the ever changing data and the recommendation to hold off about making the decision to get more information on the data. He talked about the 3 feet and the flexibility of doing the distance to best extent as possible. First Student Bus company is required by the federal government to mandate masks wearing on the bus to school or athletic events. Board Member Dunn talked about the data in the substantial over the last 2 weeks of summer programming, and inquired about positive cases and that we do not have any in the district. Johnson inquired about the data and how many that are sick are children, Superintendent Tucker said he has data on that further in the presentation. Dunn inquired

about distancing of at least 3 feet and asked if the intention is that students will eat in the cafeteria, Superintendent Tucker said the intention is to keep them in the cafeteria but LMS uses the multipurpose room for lunches and the high school will use the Huot dining room and some cases the elementary schools will use classroom in a few cases some elementary classes will eat in the classroom, Dunn inquired pre COVID and that the norm is not to eat in the classroom, Superintendent Tucker said yes, there is one class at Woodland Heights School that eats in the classroom. Board Member said she is hearing from her constituents that eating in the classroom was hard for some students and wanted to clarify what the plan is for students to eat in the cafeteria and Superintendent Tucker said they are working on the logistics of that. Assistant superintendent Hinds reported on quarantine and isolation guidelines and Superintendent Tucker added that the guidelines have changed and relaxed. Superintendent Tucker said athletics will be full play with no masks and proposed that he will work with the athletic directors and principals to determine if schedule changes or cancellations are necessary due to COVID-19 circumstances. Board Member Dunn inquired about Open House plans. Superintendent Tucker said the hope is to have the elementary Open Houses on September 2<sup>nd</sup>, LMS open House September 13<sup>th</sup> and LHS is working on a date. Board Member Dunn inquired about PTO Banking, field trips, and guest presenters. Superintendent Tucker said as long as people are symptom free. Board Member Dunn inquired about IEP and 504 meetings and Superintendent Hinds said they will plan for remote options as families enjoyed that as an option or make accommodations for a space for an in person meeting if need be. Board Member Dunn asked for clarification that if a parent made a request for an IEP or 504 meeting that the District would accommodate that for a parent, Assistant Superintendent Hinds responded yes. Board Member Dunn inquired about visitors coming in if it would be the same limited guests or a case by case, Superintendent Tucker said yes and talked about out student teachers and their importance to the District and how we have hired some of our student teachers. Superintendent Tucker talked to the Board about current COVID data by county and how we need look at local data in schools in our city. The Board talked about last year and how to move forward to get through issues and get back to students. Board Member Cormier referred to a speaker discussing education and his hope that we, as a District, get through these situations and CRT and get back to talking about education and students publically. Board Member Johnson added that the Board should go over the curriculum to improve math and science scores and said Laconia School District as a whole is 67% deficient on State scores. Board Member Cormier said we should not rely on data on mandated tests as it is not true to what students can do and talked about No Child Left behind, the data, testing and age level of students and that we should take the percentage with a grain of salt. Board Member Hayward said be careful not to conflate and assign a number and value because you have to consider what type of assessment, which domain within that content area and where does that number come from? Do not paint our students with a broad brush with that number. Our students and our teachers work hard and we have to get back to discussing where are students are at and back to presentations to see where they are at. Superintendent Tucker continued to report on data by age group and Board Member Dunn inquired about the tipping point for mask mandates and Superintendent Tucker said we don't have that number. He said we need to hold off on the mask discussion until we have a better sense of the data and come together in the middle for all kids.

### **DISCUSSION**

- **Second Read Policy JICD Student Discipline and Due Process:** There was no discussion on this item.
- **Stay in School Recommendation:** Board Member Dunn said to be clear and specific as to what we take action on for this plan in the minutes.
