Principal Levesque informed the Board that Pleasant Street School plans to stay within the threshold of 10 students per classroom and cycle students in throughout the week. They have identified 99 students that meet the criteria for interventions. Principal Johnson said Woodland Heights has the space but do not have staffing for full face to face instruction due to the remote learning division. He reported that they have identified 25-30 students that need interventions. Academic Coordinator Gail Bourn talked about setting up criteria to look at students in all aspects as critical. Principal Bryant talked about students supports at Laconia Middle School and the February break interventions. Superintendent Tucker reported on House Bill 20, and the Education Freedom Account and House Bill 607, Local Education Savings Accounts. He said going into the budget season the bills could have an impact on the budget. The amount that is available for HB 20 is based on State Adequacy and how each student may be eligible for additional funds beyond what the based adequacy amount is. The calculation is revenue taxation divided by 85 percent and taking the average daily membership. He talked about what the funds could be used for and details of both bills.

Assistant Superintendent Hinds reported on enrollment trends in Laconia over the past ten years and said currently there are 97 students in private school that we know of and 62 students being home schooled and we currently have 313 students in the remote learning division.

Business Administrator Blouin talked about the potential financial impact for the District if HB 20 is passed. There is a based adequacy of \$3,787 for each student. and the potential for all other adequacies based on students' needs and could qualify for up to \$8,458 per student. She took an average of what Laconia is currently getting per student and came up with an amount of \$4,978. For HB 607, it would be about \$7,341 per student. After discussing the bills, Board Chairperson Lounsbury stated the majority of the Board is not in favor of them.
