Alton Central School, SAU #72 Child Find

SAU #72 serves the Alton School District. As mandated under the Individuals with Disabilities Act, public schools must provide special education for all children between the ages of 3 and 21 who are determined to be educationally disabled. Additionally, school districts are required to have formal "Child Find" procedures to locate, evaluate and count children who may have disabilities to ensure that eligible children are found, classified and provided needed services. This law applies to all children, including those in nonpublic schools, preschools and hospital settings, as well as children who are wards of the state and homeless children.

If you suspect that a child may have an educationally disabling condition, you are encouraged to contact the school district in which the child resides to discuss your concerns. School personnel will provide you with information on the procedures for making a referral. SAU #72 will hold their fall Child Find on October 9th from 8:30-11:30am at Alton Central School.

For additional information, please contact Pamela MacDonald, Director of Special Education SAU #72 at 875-9302.
