

Strategic Plan Goals Final
April 4, 2018

21st Century Learning Environments

Goal 1: The District will create a learning environment designed around the flexible use of classroom space and class time.

Goal 2: The District will work with the staff around providing professional development in a personalized manner to meet their individual needs. A District professional development focus will be on using flexible spaces, technology, and flexible groupings in a way to meet the individual needs of each student more effectively.

College, Career, and Life Ready

Goal 1: Students will develop the work-study dispositions and academic skills needed to access a viable career path and be contributing members of their community.

Goal 2: Upon graduation students of the Laconia School District will have had access to and participated in a diverse and wide range of learning experiences and gained the skills needed to access their chosen career path.

Community Relations

Goal 1: By actively outreaching, networking and collaborating with local media, online resources, and in person communications, Laconia School District families will participate in educational and social opportunities with a measured increase in parental engagement and attendance.

Goal 2: Through effective outreach, the Laconia School District will heighten the awareness of our favorable interactions with the community.

Community Based Education

Goal 1: Utilize our community as a classroom.

Goal 2: Ensure staff have the resources and supports to leverage the resources in the community.

Curriculum, Instruction, and Assessment

Goal 1: To provide instruction that requires students to utilize problem solving strategies across all content areas.

Goal 2: To provide students with multiple pathways and opportunities to demonstrate their learning and skills gained.
